ROVI X3 MODULAR *maxx*

the COMPLETE SOLUTION

Motion Concepts and Invacare® Canada are thrilled to introduce the Award-winning ROVI X3 Power Base to Canada. This Mid-Wheel Drive Power Base is the perfect complement to Motion Concepts' full line of innovative power positioning products and Invacare's industry leading *Matrx*® Seating & Positioning Solutions. Available exclusively through Motion Concepts, the exceptional ROVI X3 boasts the narrowest wheelbase in the industry and all the function, stability and durability you have come to expect from Motion Concepts.

For questions/inquiries, contact your local Invacare Territory Business Manager. To place your orders, request a quote or speak with technical services, please contact Motion Concepts at 1.866.748.7943

MODULAR *maxx* System Vitals:

- Industry's most modular system, featuring up to 50° of CG Tilt, 170° of Recline with Extended Shear Reduction (ESR) and up to 12" of nearly silent Power Seat Elevation
- Utilizes ROVI Tracking Module that decreases the number of user driver control commands to maintain the wheelchair on its intended course when going over uneven or sloping terrain
- Available with the full range of Motion Concepts' accessories and Invacare® Matrix® Seating products, mounted via our all new Ultra Rail and Ultra Track slotted interfaces
- 300 lb. weight capacity
- Seat-to-Floor Heights as low as 17" with 12" of Power Seat Elevation
- 11" - 22" of seat width and 11" - 23" of seat depth adjustment

Base

ADP CODE	WP0001287
Suspension System	Active Ride Control (ARC)
Base Width	23.25"
Base Length	36.5"
