UNIQUE MASK FEATURES FOR GREATER FREEDOM, COMFORT AND COMPLIANCE

FlexiFit™ Technology Auto-contouring fit

With **Foam Cushion** FlexiFit™ Technology automatically adjusts to a wide range of nasal and facial contours with simple one-step ease of fitting and no complicated adjustments. The Foam Cushion improves the sealing technology and comfort.

Glider™ Strap Anti-leak system

The sliding Glider™ Strap provides freedom of movement while maintaining a seal. Mask force remains equal when the head rotates from side to side, minimizing the occurrence of leaks.

Under-Chin Design Extra stability

An Under-Chin fit provides stability by providing a constant point of reference and maintains the seal even with movement of the jaw during the night.

Efficient Bias Diffuser Quiet usage

Maintenance Free
This advanced air diffuser system prevents air from blowing onto the sleeping partner and decreases noise that could potentially disrupt sleep.

Premium Frosted Silicone Seal Optimizing seal technology

This seal technology has a soft, smooth feel to slide onto the face, and its frosted texture optimizes the mask seal.

Crown Strap Extra stability

Complements the Under-Chin Design to maximize stability and eliminate the need for a chin strap.

Easy-Release Strap One-step removal

Simply pull the Easy-Release Cord for one-step removal of headgear. No ongoing headgear adjustments required.
