*"Many hip and back problems I treat often originate from people overcompensating for sore, tired feet and lower legs. The CirQlation Foot & Calf Massager is a great way to maintain foot and leg muscle and joint wellness, which contributes to overall physical well-being."*

## Give boring old furniture a 180-degree turn.

Put your feet and calves into one of the most advanced pieces of furniture you'll ever experience. The Human Touch® CirQlation™ Elite delivers the very latest in three-dimensional, robotic foot-and-calf massage technology with soothing vibration, and quickly turns into a comfortable footrest. With a quick 180-degree turn, convert the stylish CirQlation™ Elite into an expert massage therapist.

Human Touch is the only company in the world to use Figure-Eight™ Technology in our foot-and-calf massagers, ensuring a superior kneading massage that improves blood circulation to relieve sore, tired muscles. The ottoman rotates to enhance your comfort, and can be used with any chair for a rejuvenating massage at home or in the office. The CirQlation™ Elite massages the calves in an upward, rolling or wave-like fashion. This motion forces blood away from the feet and toward the core of the body to improve blood flow and make you feel better.

For the ultimate indulgence, pair the CirQlation™ Elite with any of our Human Touch iJoy® chairs to experience a full-body massage that will melt away stress, fatigue and tension. Change the way you think about comfort and wellness—with the CirQlation™ Elite.
