

Non Expandable Electronics

Can the consumer manage a standard proportional joystick?

Joystick (no additional billable code)

- Seat functions (tilt and/or lift) can be operated by a separate toggle
- No need for upgrade to specialty controls

Does consumer need to operate 1 power actuator thru the joystick?

E2310

- Thru drive power seat function
- **E2310** – Operation of one seat function thru input device

Does consumer sometimes require driving assistance in small spaces (van entry/bed transfers) or management of power seat functions in time of medical emergency (hypotension, autonomic dysreflexia)?

Attendant control

E2331 – Attendant control

Expandable Electronics

Does consumer need to operate 2 actuators (tilt and recline) thru the joystick?

E2311

- Thru drive power seat functions
- **E2311** – Operation of ≥ 2 seat functions thru input device
- **E2377** – Expandable controller
- **E2313** – Expandable input and cabling

Is consumer able to manage standard joystick but requires multiple drive profiles with individualized programming for safe driving in customarily encountered environments such as van entry, home environments, community mobility?

E2377

- Joystick control
- **E2377** – Expandable electronics
- **E2313** – Expandable input and cabling

Is consumer unable to manage standard joystick but can manage a mini, compact or short throw joystick or other specialty control device?

Mini/compact joystick

E2377 – Expandable electronics
E2313 – Expandable input and cabling
E2373 – Compact Proportional
E2312 – Mini Proportional
E2310 / E2311 – Thru input device control of 1 or ≥ 2 power seat functions

Mechanical Switches

E2377 – Expandable electronics
E2322 – Mechanical switches
E2310 – Thru input device control of 1 power seat function or
E2311 – Thru input device control of ≥ 2 power seat functions

Sip and Puff Interface

E2377 – Expandable electronics
E2325 – Sip and puff interface
E2326 – Breath tube kit
E2310 – Thru input device control of 1 power seat function or
E2311 – Thru input device control of ≥ 2 power seat functions

Non Proportional Head Array

E2377 – Expandable electronics
E2330 – Non proportional head array
E2310 – Thru input device control of 1 power seat function or
E2311 – Thru input device control of ≥ 2 power seat functions

Proportional Head Array

E2377 – Expandable electronics
E2328 – Proportional head array
E2310 – Thru input device control of 1 power seat function or
E2311 – Thru input device control of ≥ 2 power seat functions

Does consumer sometimes require driving assistance in small spaces (van entry/bed transfers) or management of power seat functions in time of medical emergency (hypotension, autonomic dysreflexia)?

Attendant control

E2377 – Expandable electronics
E2331 – Attendant control

Our Built-4-Me Team is dedicated to creating product customizations beyond what is listed on our product order forms. Experts in the engineering and manufacturing of custom rehab products will listen to your specific requests and build a chair as individual as your fingerprint!

Featured Power Chair Customizations

- 24" seat width on QM-715 HD
- Captain's Seat on QM-710
- Life Sustaining Accessory Mounts
