THE POWER OF MOBILITY™

ADVENTURE AWAITS... INDOORS OR OUT!

The Permobil M300 PS Jr. combines the capabilities of our M300 base with the versatility of the PS Jr. seating system for the perfect pediatric chair. With a tight turning radius, you'll be able to maneuver through your home with ease, while our innovative CATLink (Climbing and Traction Linkage) System increases capability to get over obstacles and helps prevent high-centering. The expandable seat pan allows for a custom fit, so the chair can grow with the child. Plus, the PS Jr. is designed with convenient flip-back armrests, making transfers a breeze. And thanks to the UniTrack, standard on the PS Jr., you can have a variety of adjustments and accessories for added comfort.

M300
PS JR.

CATLINK SUSPENSION
Casters are connected for added climbing stability.

AERON LEGRESTS
Adjustable, individual legrests, allow for better positioning.

TIGHT TURNING RADIUS
20" / 510 mm turning radius for increased maneuverability.

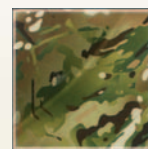

FLIP-BACK ARMRESTS
Armrests flip back completely out of the way for easier transfers.
