

Carl-Oskar

The Carl-Oskar is one of Human Care's best known and top-selling rollators worldwide. It is available in three different widths and features extra large 11" wheels for added stability. Its unique reactive frame makes it an ideal choice for rural areas as it remains stable on virtually any surface, even if rough or uneven. The Carl-Oskar is also available in a reinforced model or with air tires and comes standard with a basket and a backrest.

The Carl-Oskar is the perfect rollator for the active user!

Carl-Oskar reinforced

Outstanding stability

The large stable wheels make the rollator roll very easily yet remain stable on virtually any surface. The flexibility in the chassis allows the rollator to be stable even on rough or uneven surfaces. This makes the rollator one of the most versatile rollators on the market.

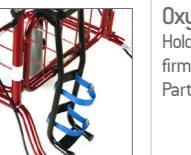

Easy to fold and store

The Carl-Oskar rollator folds very easily from side to side and can stand securely and independently when folded. The rollator also takes little space when folded and is very practical to transport.

Ergonomic handles and easy braking

In order to offer you the best ergonomics, the handles feature an ergonomic design that ensures even distribution of weight for a stable, comfortable grip. In addition the handles are angle-adjustable, so that you can find the optimal position for your hands.

Accessories

| | | | | | |
|---|---|---|--|---|---|
|  | Tray Practical for resting light weight items. Part no. for 57 cm models: 10651, Part no. for 62cm, 67cm and 72cm models: 10602 |  | One-hand brake Allows the user to control brake functions with one hand.
