

WE'RE THE COMPANY THAT BRINGS YOU The ELK & CAMEL

LIGHTWEIGHT LIFTING DEVICES

THE SAFE, DIGNIFIED SOLUTION TO ASSIST CAREGIVERS WITH INJURY-FREE, SAFE PATIENT TRANSFERS

Relying on your back or inadequate equipment when someone falls often results in an embarrassing situation for staff and patient. Worse yet it could result in injuries to both the healthcare professional and client. The ELK and CAMEL are portable, easy-to-use, affordable solutions for assisting people when they fall and cannot get themselves up. Additionally, the potential for patient injury as a consequence of a manual handling mishap is reduced as our equipment is specifically designed to move patients safely.
