

More energy. More adventure.

More family. More time.

Stylish on the Outside.
Smart on the Inside.

HEALTHCARE

Introduce an F&P ICON™ to your family

ThermoSmart™
More humidity.
More comfort.

SensAwake™
Responsive to
waking moments.

InfoSmart™
More communication.
More results.

Great design enriches your life

Your quality of life shouldn't be compromised by CPAP therapy. Your sleep surroundings needn't be either.

The F&P ICON™ has been designed from the outside-in to answer the CPAP user's strong call for a compact, stylish CPAP that blends seamlessly into any bedroom environment.

Strong on looks and even stronger on intelligence, you can feel at ease knowing you are being taken care of by a full range of the world's leading clinical technologies for treating Sleep Apnea. The F&P ICON™ has a range of useful features that compliment your CPAP therapy as well as everyday life.

F&P ICON™ Lifestyle Features

Size:	Small and compact for the night-stand, with a fully integrated humidifier, power supply and a hidden water chamber so you still get the best in humidification and comfort while you are sleeping.
Style:	Designed to look more like a household appliance rather than a medical device with neutral colours to blend into any bedroom environment.
Forward Facing Display:	You now have complete control of the menu system at the touch of a button without having to sit up in bed to find the controls.
Clock/Alarm:	No need to squeeze multiple items on the night-stand. The F&P ICON™ is all you need with a clock and alarm function.
Sound:	AlarmTunes™ means that you can wake-up to your favourite songs! Download music onto your SmartStick™ using SmartStick™ Studio software and you will enjoy less 'tone' and more 'tunes'.

Focus on features
