THE POWER OF MOBILITY™

TO NEW BEGINNINGS

The C400 Corpus 3G represents the perfect union of design and advanced engineering concepts. The small profile of the C400 allows for better indoor maneuverability, yet it also provides superior outdoor performance. In addition, the Corpus 3G seating system follows the contours of the body and offers infinite adjustments for a custom fit. The armrests feature built-in channels for cable routing, which greatly reduces the need for messy wire ties; while the legrests are curved for better support. Reclining a full 175°, the Corpus 3G is designed for comfort beyond comparison. The C400 Corpus 3G is truly a reason for celebration.
