

**Transport Sling (use with Stand-Up Lift)**

Transport slings are for transferring residents with minimal weight-bearing capacity, who have head and neck control, are cooperative, can sit up on the edge of the bed (with or without assistance), and are able to bend at the hips, knees and ankles. Use the R134 and R136 transport sling for transferring resident from bed to chair, chair to car or general in-room transport. Do not raise resident to a full standing position while using the transport sling.

Fits the following lifts : Reliant™ 350, 440, Get-U-Up

Model No.	R134	R136
Size	0	XL
A	34"	46"
B	13.5"	13.5"
C	9"	10"
Weight Capacity	440 lb.	440 lb.

**Standing Sling (use with Stand-Up Lift)**

Standing slings are for residents who are partially dependent, have at least 60% weight bearing capacity, have head and neck control, are cooperative, can sit up on the edge of the bed (with or without assistance), and are able to bend at the hip, knees and ankles. Use the R130 or R131 standing slings for standing assistance, quick toileting, weight bearing practice and for transferring resident from bed to chair, or chair to bed.

Fits the following lifts : Reliant™ 350, 440, Get-U-Up

Model No.	R130	R131
Size	0	XL
A	60"	84"
B	16"	16"
Weight Capacity	440 lb.	440 lb.

Invacare® Reliant™ Slings

**Warning!**

BEFORE using the Patient Lift, READ and UNDERSTAND the Owner's Manual for proper operation and safety procedures.

Use the sling that is recommended by the individual's doctor, nurse or medical attendant. Before lifting, check all sling straps for secure points of attachment on lift device. Do not exceed weight limitation posted on lift. Use only with Invacare Patient Lifts. Bleached, torn, cut, frayed or broken slings are unsafe and could result in injury. Discard immediately. Do not alter slings. Use only on Invacare lifts.

Optimum functionality. The Jasmine full body lift has innovative features that provide safer resident handling within a 500 pound weight capacity. Caregivers can rely on safer operation and residents on maximum comfort during everyday transfers.

Beyond that, the Jasmine lift expertly functions in more challenging situations with a rotating 360° 6-point hanger bar and 16.4" minimum height range, essential for assisting residents who may have fallen to the floor.

The stable spring-loaded hanger bar produces an audible click when the sling is engaged. This assures the caregiver that the sling is properly attached. And that means less stress for the caregiver, a stable transfer for the resident and less likelihood of injury for both.

Optimized maneuverability is key for a comfortable transfer. Jasmine lifts feature a battery-powered boom and wide-opening base; so caregivers can easily walk behind them and wheelchairs can be accommodated up front. The push handle accommodates any staff member. And with a lighter-weight aluminum and steel construction, control in movement is straightforward and trouble-free.

### Lifting Range

*This lift expertly functions in more challenging situations with a rotating 360° 6-point hanger bar and 16.4" minimum height range, essential for assisting residents who may have fallen to the floor.*

### Maneuverability

*The push handle accommodates any staff member. And with a lighter-weight aluminum and steel construction, control in movement is straightforward and trouble-free.*

### Ease For Caregivers

*Jasmine lifts feature a battery-powered boom and wide-opening base, both controlled through the hand pendant*

### Security

*The stable spring-loaded hanger bar produces an audible tone when the sling is engaged. This assures the caregiver that the sling is properly attached.*

The Invacare® line of Reliant™ lifts was conceived to help reduce the possibility of caregiver back injury and to ensure dignity in patient handling. These high-quality lifts are comfortable, reliable and integral tools for staff and caregivers. Using the lift for patient handling can help reduce staff injuries, save you money and reinforce safety as a priority in your health care facility. Invacare Reliant lifts support up to 450 pounds, making potentially challenging transfers smooth for the resident and caregiver. The high lift range allows easy access to tubs, chairs, commodes, floors and beds (with at least 4.5" under-bed clearance). Along with functional and innovative lifts, Invacare also offers facility assessment plans to further aid in your safety management program. Our all-encompassing lift system also includes in-service training, videos and an ergonomic safety plan. Our goal is to partner with you in lowering costs and protecting your staff from injury. The sturdy and practical design of Reliant lifts provides the solution you need for success in your quest to provide safe and effective health care.

Ask us about our injury prevention program.

## Invacare® Reliant™ 450 Hydraulic Lift

Model no. RHA450-1 Hydraulic Adjustable Base (shown), RHL450-1 Hydraulic Low Base Adjustable

- Pump mechanism allows transfers of up to 450 lb. with minimal effort
- Comfortable handle placement for ease of use
- Wide base for maximum stability
- Low maintenance
- Limited warranty includes three years on lift, one year on pump

## Invacare® Reliant™ 450 Battery-Powered Lift with Low Base

Model no. RPL450-1 Power with Low Base

- Removable battery easily charges overnight on wall-mounted charging station
- Equipped with a quiet, long-life motor
- Wide lift range for easier transfer
- Wide base for maximum stability
- 4.5" Under bed clearance
- Limited warranty includes three years on lift, one year on battery

## Invacare® Reliant™ 450

Model no. RPA450-1 Power with Adjustable Base

## Reliant Lift Features

- Height range allows lifting from floor and high surfaces
- Low friction casters significantly improve rollability and contribute to caregiver safety
- Removable battery pack eliminates downtime and simplifies the charging process
- Manual lowering for instant response to power loss
- Electronic system includes two 24-volt batteries: one for lift, one for battery-charging station; a manual emergency lowering device; and an anti-entrapment feature if boom meets any resistance while lowering
- Available with power opening base option (model no. RPL450-2)
- Multi-grip push handle is angled to minimize wrist strain
- Base legs adjust easily and lock securely into open position with the padded shifter handle or optional power option
- Total pinch-point protection covers all moving parts for added safety
- Padded swivel bar with 360° rotation and six-point hook-up allows use of Invacare chain-free slings as well as older style slings with chains or straps
- Attractive neutral design blends well into any environment
- Covered base provides protection against wear, dirt and moisture
- Manufactured in an ISO13485 facility

Complete instructions for lift usage and sling procedures are found in the Invacare Operating Manual. Only Invacare slings and accessories should be used on Invacare lifts.

### Hand Pendant

- Ergonomic control with heavy-duty cord
- Convenient pendant hook allows attachment and storage on multiple areas of lift

### Rear Locking Brakes

- Locking feature on 5" rear casters is standard on all models

### Invacare® Reliant™ Digital Scale

Model no. RLS6

- Retrofits on all Reliant 450/600 lifts. Model no. 9805 requires Reliant swivel bar (Part no. 1064518)
- Easy to operate, four-button display
- Automatic shut-off feature prolongs battery life
- Two-year limited warranty

### Manual Lowering

- Manual emergency lowering feature gently and safely lowers resident in case of total power loss
- Essential safety feature
- Manual lowering is easy and effortless. Simply insert the end of a ball point pen into the hole marked "emergency" or lift on the accessible ring-pull

### Electronics

- Removable battery box is conveniently located on mast; it features an emergency OFF button and beeps when battery needs to be recharged; requires one 24-volt battery
- Quick-release battery eliminates downtime
- Anti-entrapment feature stops motion if boom meets resistance while lowering
- Heavy-duty hand pendant and cord

### Charging Station

- One 24-volt battery on mast with quick release
- Battery can be replaced immediately with second battery in wall-mounted charger
- UL listed and CSA certified

Designed to meet the special needs of your patients weighing up to 600 pounds, the Invacare® Reliant™ 600 heavy-duty lift is secure and sturdy, providing a safe alternative to manual lifting. Both durable and functional, the Reliant 600 is also a reassuring and comfortable patient lift. When answering the needs of every patient is your priority, this is your wisest choice.

Model no. RPL600-1 Power lift with low base.

## Features

- High lift range allows transfer to high surfaces
- Low friction casters significantly improve rollability and contribute to caregiver safety
- Designed to meet the needs of the growing bariatric population up to 600 lb.
- Manual lowering for instant response to power loss
- Unique sling fabric designed to provide the utmost in comfort and strength
- Available with power opening base (model no. RPL600-2)
- Essential device for safe patient handling in hospitals and LTC (long-term care) facilities
- Limited warranty includes three years on lift, one year on electric components
- Rear locking casters are standard
- Manufactured in an ISO13485 facility

Complete instructions for lift usage and sling procedures are found in the Invacare Operating Manual. Only Invacare slings and accessories should be used on Invacare lifts.

Too often, manual patient transfers lead to caregiver back injuries. The Invacare 9805 and 9805P hydraulic lifts were created to make handling situations safer and affordable for everyone involved. With their slim design, these hydraulic lifts are versatile enough to use for most any and all patient transfers. The features of the 9805 and 9805P include a padded swivel bar and push handle, a 450-pound weight capacity, durable chrome-plated construction or painted finish and 360° patient rotation without side-to-side sway. Lightweight construction and easy disassembly allow for quick transport and setup. Indispensable to patients and caregivers alike, the 9805 and 9805P offer safety, comfort and stability. Most important, they offer peace of mind, which makes them valuable assets to your health care facility.

## Features

- Six-point swivel bar attachment easily adapts to all sling styles and positions
- Low friction casters significantly improve rollability and contribute to caregiver safety
- 20"-64" range allows for patient to be picked up from lying position on floor
- Pump handle can rotate from side to side for convenience of attendant
- Offset mast and boom style provide better lift path, maximizing full travel range
- Swivel bar and pump handle are padded for comfort
- Elongated handle design serves a broad range of operator heights and offers improved handling ability
- Limited warranty includes three years on lift, one year on hydraulic pump

**Base**

Model no. 9884 Adjustable base

- Completely enclosed cam moves legs of adjustable base
- Offers obstruction-free operation; ideal for cleaning
- Screw-in pin at mast base provides maximum stability and prevents removal of mast

*Hydraulic pump raises boom from lowest to highest height with minimal physical effort.*

**NEW**

We leave the lifting to the lift. For residents who need assistance in standing, Roze stand-up model lifts are expressly designed to promote independence for the resident while at the same time relieving the lifting burden from the operator.

**Strength Capacity**

The unique height-adjustable kneepad and 450 pound weight capacity easily accommodates the majority of residents in your facility.

**Ease of Use**

With a large push handle, lighter steel and aluminum construction, and simple sling attachment, it is easy to accomplish everyday transfers.

**Accommodating**

For those who only need help rising, simply remove the footplate.

**Maneuverability**

A small footprint combined with lighter weight aluminum and steel construction provide easy maneuverability.

Comfortable and secure, the Invacare® Get-U-Up™ stand-up lift is the answer to your patient transfer needs. Its ergonomic styling and easy maneuverability make the Get-U-Up an ideal product for every day patient handling. The Get-U-Up helps ensure caregiver security and patient peace of mind. Ideal for use with partial weight-bearing patients as well as those needing rehabilitation support, the Invacare Get-U-Up stand-up lift offers safety, comfort and stability.

Model No. GHS350

## Features

- Innovative adjustment features adapt to a wide variety of body sizes and shapes. That means comfort at any height, width and weight range up to 350 lb.
- Low friction casters significantly improve rollability and contribute to caregiver safety
- Multi-function slings allow for quick toileting, stand-assist or full-support seated transfer
- Adjustable leg support features a soft pad with lateral contour that secures legs in multiple positions for comfort at any height
- Retractable, non-slip footplate provides stable base for transfer
- Under-bed clearance of 4.5" allows accessibility to most homecare-style beds
- Ergonomic features make it ideal for toileting transfers, as well as dependent and rehabilitation purposes
- Fast, simple sling attachment that protects against accidental disengagement; wide push handle, good access for clothing removal; and comfortable slings with extended back support that prevents pressure in the under arm area
- Pump handle can rotate from side to side for convenience of caregiver
- Limited warranty includes three years on the lift, one year on the hydraulic pump

The new Invacare® Premier Series slings balances solutions for any transfer. We say that with confidence because these slings were developed in collaboration with Occupational and Physical therapists. Invacare Premier slings are available in a wide variety of styles and can be adjusted to ensure a comfortable and secure fit for the resident. Clearly labeled slings and easy attachment points make it simple for the caregiver to quickly attach the sling and lift the resident.

### Universal High SlingPlus

Supports the whole body and head in transfers to/from seated or lying position. Offers a comfortable recline for those with limited head, trunk or hip control. Allows arms to hang outside the sling.

### Cradle Sling

Designed for use with our new Jasmine lift. Comfort and support of the whole body and head are crucial for those with head, trunk and hip concerns. 4-point attachment clips onto the cradle bar for best positioning in horizontal-to-seated or seated-to-seated transfers. Head support is optional by removing rigidizers.

Compatible with the following lifts

- Jasmine™ with cradle accessory

SIZE	PRODUCT NUMBER / MATERIAL				
	A	B	C	D	Polyester Fabric

# Invacare® Reliant™ Full Body and Stand-Up Lift Slings

Invacare® Reliant™ slings come in a wide array of styles to meet a variety of client needs, and the new, improved overall design makes them all easier than ever to position. Reliant slings feature a unique, fully padded fabric that forms a soft yet supportive surface. The soft, brushed lining helps prevent sliding for ultimate comfort and skin protection, and the new, stretch-resistant feature helps the slings hold their shape for superior support and ease of positioning. For clients and caregivers alike, Invacare Reliant slings are designed with comfort and safety in mind.

Invacare® Reliant Toileting Sling with Belt

- Sling size and fit can vary significantly depending on patient weight and girth. These are general guidelines. Consult physician before sling selection.
- Washing instructions are on each sling label. Washing temperatures should not exceed 180° F. Air-dry or dry at low temperatures.
- All slings are constructed of polyester fabrics which can be used in wet or dry environments.
- All Invacare® slings were designed specifically for use with Invacare® brand lifts for proper usage and optimal performance. To receive the maximum benefits from our products, please see our size guide, product specs and operator manuals for solutions that best suit the needs of your facility. [Insert other legal line as determined in previous collateral]

## Sling Sizes

## Full Body Sling With/Without Commode Opening (CO)

An easy sling to use while transferring the resident from the bed to a wheelchair, toilet or shower-chair or from floor to bed. It offers total head and neck support and the padded lower section provides additional under-thigh comfort and support. Use the full body sling for residents who are totally dependent, partially-dependent, non-weight bearing, very heavy or have limited head control. Use this sling for amputee residents (in a reclined position).

Fits the following lifts : Reliant™ 450, 600

## Divided Leg Sling

The divided leg sling is a secure, easy-to fit general purpose sling, designed for the majority of sling users. Use the divided leg sling for residents who are totally dependent, partially dependent, non-weight bearing, very heavy or have limited head control. Use this sling when transferring the resident from the bed to a wheelchair, recliner or showerchair. The large opening also accommodates toileting.

Fits the following lifts : Reliant™ 450, 600

Model No.	R100P	R100	R101	R102
Size	S	M	L	XL

## Solid Fabric Toileting Sling

The Toileting Sling offers superb access for quick toileting and hygiene. It is easy to place and remove in a bed or chair situation. The fully padded design supports the back, offers under thigh comfort and allows for removal of clothing. Color coded positioning straps help align the sling properly on the hanger bar. Note: This sling requires the patient to have FULL head and neck control.
